

Client: Airbus

Project: Design and facilitation of an interactive inter departmental workshop to enhance the delivery of non-management training at the Broughton site

Purpose: To enhance the delivery of the non-management training through improved processes and communication with all involved stakeholders

Project stages

1. Prior to workshop
 - input from personnel in all departments to
 - identify the problems impacting on the effective running and management of training for non-management staff
 - identify processes to enhance and improve processes
 - develop inter departmental communication and working
2. Design of workshop with input from involved staff
3. Facilitation of workshop to achieve identified objectives
4. Review of workshop

Our role

- Discuss issues impacting with all departments
- Design a one day off site event, focusing on problem solving, collaboration and decision making
- Facilitate a one day off site event
- Capture outputs and identify ways to build on the event
